

COMMUNITY RISK REDUCTION BUREAU MANUAL
DEVELOPMENT POLICIES
425.15 TRAFFIC CALMING DEVICES
EFFECTIVE: APRIL 1, 2016
AUTHORIZED: *R. Pearce*

SCOPE

This policy establishes the prohibition of traffic calming devices within the Tiburon Fire Protection District.

PURPOSE

The purpose of this policy is to outline the prohibition of traffic calming device installations within the Tiburon Fire Protection District.

APPLICATION

Traffic calming devices are design elements that are intended to reduce traffic volumes and slow vehicle speeds. The primary reasoning for the prohibition of traffic calming devices is that their installation increases Fire District (and other emergency vehicle) response times. Additionally, any traffic calming device has the potential to cause significant damage to Fire District apparatus.
